CI-100

CI-100

The cash recycling system CI-100 which consists of banknote recycler CI-100B and coin recycler CI-100C improves security and reduces cash handling time of day-open, shift change and day-close. CI-100 offers cashier operation for cash handling at back office of retail so managers can have more time to focus on their core business. If the compact cash recycling system CI-10 is in place, the CI-10 and CI-100 offer secure closed cash management. In addition, the CI-100 handles not only the interface cassette of the CI-10 but also the loose notes of the manual cash drawer. This unique function gives retailers flexibility and extensibility.

Data interface port
LAN

Specifications

		CI-100B (Banknote recycler)	CI-100C (Coin recycler)
Appearance	Dimensions (WxDxH)	without monitor (UL 24 hours) 380 mm x 835 mm x 1,100 mm with monitor (UL 24 hours) 380 mm x 835 mm x 1,573 mm	500 mm x 835 mm x 1,100 mm
	Weight	Approx. 380 kg (UL 24 hours, safe bag type)	Approx. 270 kg

Functions of CI-100

Secure closed cash management with the CI-10

Interface cassette of the CI-10 makes secure closed cash management possible with CI-10.

Two ways to deposit / dispense banknotes

The CI-100 handles not only interface cassette of the CI-10 but also loose notes of the manual cash drawer.

Direct coin dispense into manual cash drawer

Offers the cashier easy and fast operation when preparing change fund.

Easy operation with touch panel display

User friendly and simple interface on touch panel display allows cashier / manager to operate easily.

CI-SERVER, Cash management software

The CI-SERVER which can be operated via a web browser offers centralized cash management.
